

## MADISON SPEED NETWORKING

Hosted by Plan Ahead Events

# WARM UP YOUR SALES WITH NEW CONTACTS!

Speed networking is the hottest new form of effective networking! At speed networking events, people meet each other one at a time for a short interval and then move on to the next person in line. The events are structured to allow attendees to meet all of the business people attending the event, rather than just a few like traditional networking events. Attendees sit across from one another and after the set time period has expired, the outside circle of people get up and move in one direction around the circle until everyone has met. It is the most effective way to increase your sales fast!

Join us for the Second Madison Speed Networking Event  
of 2010!
